GHOST OUT / SOFA, Paola Navone

Family of padded sofas with removable upholstery, boast a comfortable and enveloping seat that develops around a light body with essential volumes. Designed to resist water and sunlight and to maintain their shape and aesthetics over time, they are available in various sizes, two-seater or three-seater and with different seat depths. They are characterised by a geometric structure in which the softness is accentuated by loose cushions. The main feature is the upholstery: an oversized house whose profile is underlined by the visible stitching, to let itself be undressed with ease and take on a different image each time. Solid beech frame with raw plywood panels. Upholstery with polyurethane foams, covered by resinated material. Back cushions in dacron and down. Black polyethylene feet.

Recommended for use on verandas and terraces. All GHOST OUT collection items must be protected from sunlight using the protection cover to ensure the water-repellency characteristics. For best results, make sure the items, cushions, covers are completely dry before covering furniture, in order to avoid moisture build-up or the growth of mould.
